Professional Summary

Full-Stack Developer with 2.5 years of experience in building scalable, responsive, and performance-driven web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). Strong expertise in designing modern UI architectures, integrating RESTful APIs, and managing complex application state using Redux.

Experience

Tech Mahindra Ltd

1 Year

Full Stack Developer

- Built responsive UI components for a job portal ([GreatHire](#)) inspired by platforms like Naukri.com, ensuring consistent UX across desktop and mobile views
- Worked with **MongoDB** to manage and **optimize database** queries for better performance
- Implemented **Redux** for efficient **state management**, ensuring smooth data flow across the application
- Collaborated with the backend team to integrate **RESTful APIs** for job listings and authentication

Care Health Insurance

1.5 Years

Full Stack Developer

- Integrated **CIBIL score-based customer segmentation system** into onboarding flow using React.js and backend APIs
- Enabled real-time classification of users based on credit score, improving lead quality for sales team.
- Contributed to **15-20% increase in sales conversion rate** through data-driven customer targeting.

Projects

Learn And Spark

- Developed a MERN stack-based EdTech platform, enabling **CRUD operations** and optimizing performance across **MongoDB, Express.js, React, Node.js** and **API integrations**.
- Implemented a secure link-based password reset feature.
- Tools and Technologies: **Redux, Nodemailer, ChartJs, Cloudinary** and **Tailwind**
